

# CESAR TOMATIS

## Software Engineer

🇺🇦 Austrian/Argentine citizenships 📍 Barcelona, Spain ✉ cesartomatis@outlook.com

## SUMMARY

I'm a proactive person, always looking for new challenges and eager to learn new technologies. I love teamwork.  
I'm a front end software engineer with 5+ years of experience. Since the beginning of my professional career I've worked with mobile technologies such as Ionic and Xamarin and web technologies such as React and Angular. As time went by I started learning by my myself other technologies such as NodeJS with Express and MongoDB to be able to create complete applications by myself.

## EXPERIENCE

### MERN Stack Developer

📍 Barcelona, Spain 📅 01/2020 - present  
I'm currently developing a web app that allows users to create and share food recipes with other users. I'm using **React** with **Hooks** and **Redux** in the **front end** and **NodeJS** with **Express** and **MongoDB** in the **back end**.

### Software Engineer

atSistemas - 📍 Barcelona, Spain 📅 08/2019 - present  
I'm currently working with **remote teams** distributed in Madrid and other cities from Spain.

- **Bank of Spain** 📅 03/2019 - present  
I was involved in the last stages of the app development (using **ionic 4**). I was in charge of fixing the final bugs, developing the latest change requests and distributing the app using **Fabric**.
- **Ayanet Tic - Nutrinav App** 📅 01/2020 - 03/2020  
I was involved in the last stages of the app development (using **ionic 4**). I was in charge of fixing the final bugs, developing the latest change requests and distributing the app using **Fabric**.
- **Vodafone** 📅 08/2019 - 01/2020  
I was involved in the development of a mobile application built using **ionic 4**. I started this app from scratch, building the entire architecture. It was meant for internal use only, for sharing documents between users. These documents were stored using **blockchain** in the backend.

### Front End Developer

Centrum - 📍 Rosario, Argentina 📅 11/2018 - 03/2019  
I developed a web application for a cosmetic clinic to manage appointments using **Angular 7**.

### MEAN Stack Developer

UTN - 📍 Rosario, Argentina 📅 04/2018 - 04/2019  
I developed a web booking management engine using **Angular 7** in the **front end** and **NodeJS** with **Express** and **MongoDB** in the **back end**.

## EDUCATION

### Systems Analyst

UTN - Facultad Regional Rosario  
📅 04/2019

### First Certificate in English

University of Cambridge

## LANGUAGES

**Spanish** Native ●●●●●  
**English** Proficient ●●●●●  
**Italian** Intermediate ●●●●●

## AWARDS

🏆 OZ Employee Recognition Award  
Customer Focus

## TRAINING/COURSES

- React - The complete guide (incl Hooks, React Router , Redux)
- Angular & NodeJS - The MEAN Stack Guide
- Angular - The complete guide
- The complete NodeJS developer course
- Create a CRUD application with Ionic
- Make Mobile VR Games in Unity with C#
- Game Physics - Introducing
- Complete C# Unity Developer
- Design patterns in C# and .NET

## Lead Mobile Developer

OZ - 📍 Rosario, Argentina

📅 06/2015 - 05/2019

I've worked mainly with **mobile technologies** as a developer and ended up **leading** two different projects for the same client. In all the projects I worked with people that were at the same office than me and **remote teams** from the US.

- **Life's Abundance - Mobile App**

📅 07/2017 - 05/2019

I was involved in the development of an application for managing vendors franchises using **ionic** and **Angular**. Is meant to be used on any device that runs **iOS** or **Android**. I was the **TL** of an **Agile** team (2 devs/ 1QA/ 1BA/ 1PM), following **Scrum**.

**Client feedback:**

<https://followoz.com/resources/case-studies/wellness-comp-any-fit-as-a-fiddle-after-software-systems-overhaul/#content>

- **Life's Abundance - Warehouse App**

📅 01/2017 - 05/2019

This app has been developed using **Xamarin.Forms** and is meant to be used only on iPad Mini 4. It's an app for internal usage to manage stock.

I was the **TL** of an **Agile** team (1 dev/ 1QA/ 1BA/ 1PM), following **Scrum**.

**Client feedback:**

<https://followoz.com/resources/case-studies/wellness-comp-any-fit-as-a-fiddle-after-software-systems-overhaul/#content>

- **VR House Walkthrough**

📅 08/2016 - 01/2017

I was part of the team (3 devs) involved in the development of an **Oculus GearVR** house walkthrough.

The application was made using **Unity Engine** and consisted in uploading the 3D models of a house and allow the user to walk through it and be able to see every detail of the house without the need of going to the physical place.

- **iPic Theaters - Mobile App**

📅 03/2016 - 08/2016

This app has been developed using **ionic** and **Angular**. Is meant to be used on any device that runs **Android** or **iOS**. It's a mobile booking solution for a premier luxury restaurant-and-movie theater.

Team of 4 devs, used **Agile** methodologies following **Scrum**.

- **Runzheimer Inc - Equo Mobile App**

📅 06/2015 - 02/2016

This app has been developed using **Xamarin.Forms** and is meant to be used on any device that runs **Android** or **iOS**. It's a mobile solution for a mileage and expense tracking for corporate travelling agents.

I was part of a big **Agile** team (8 devs/ 2QA/ 1BA/ 1PO), following **Scrum**.

## Android Developer

CeDITE - 📍 Rosario, Argentina

📅 03/2015 - 12/2015

CeDITE stands for "Centro de Desarrollo e Investigación de Tecnologías Especiales" (Center for Development and Research of Special Technologies).

I worked developing **native Android** apps using **Java** and **Android Studio**. This apps helped people with Down Syndrome to improve their communication skills.
